25X1

1. An antiaircraft unit is installed north of the Fetesti-Cernavoda railroad, at approximately 60 kilometers from the Dunarea station. The unit is located between the Ovidiu and the Cernavoda stations.
2. Eight stone platforms are built in the middle of a willow wood. Seven antiaircraft guns and a range-finder are installed on the stone platforms. The antiaircraft guns are 75 millimeters in caliber. The stone platforms are three meters high and are connected with each other by a system of small board bridges.
3. West of the Dunarea railroad station and parallel to the railroad tracks, there are two wooden barracks, of German type. Dimensions: 20 meters long, 6 meters wide. They serve as dormitories and mess hall for the soldiers. The soldiers wear khaki uniforms, bearing black epaulets.
